

A MESSAGE FROM TED COHEN, OWNER

I am proud to say the company is entering its 30th year of operation. We have a dedicated and experienced team of employees to help facilitate your orders. While we are large enough to efficiently handle an order of any size, we still maintain the feeling of a small company: we pride ourselves on our personal service.

With the increased awareness of health and better-for-you foods, there is an ever-growing demand---and opportunity---for sugar free candy. We have a fresh look to our GoLightly sugar free packaging. We have updated our peg bag designs to meet the market's growing demand for our product.

Our new hit sensation GoNaturally Organic Candy has surpassed our expectations and has met with success in all classes of trade. The reported sell through has been terrific. SPINS* has named GoNaturally "The #1 Selling Adult Organic Candy...and the Fastest Growing Brand in the Category."

Additionally, we continue to offer "Hillside Sweets," our sugar based candy line. The unbranded, brightly colored, visually appealing wrappers have made this line a winner.

You can buy our quality brands with confidence: our candy is 100% Made in America.

Whichever line you request, you will see Hillside's enormous commitment to provide the best tasting candy available...and service to match.

We are committed to the candy industry, and I personally am committed to giving you the best service possible.

Thank you for your business and interest in Hillside Candy.

**As reported by SPINS, the leader of syndicated data tracking in the Natural Products Industry.*
